ALMA EDITH ABRAMS

PORT HOPE — Interment was at Port Hope Union Cemetery for Alma Edith Abrams who died recently in Cobourg and District Hospital after a brief illness.

A family service was held at the D. E. Allison Funeral Home, Port Hope, and from there to service at the Grace Missionary Church. Mrs. Abrams a resident of Port Hope since her marriage in 1917, was a member of the church and a supporter of the missions.

She was born at Desert Lake, Ont., a daughter of the late Edward and Edith Snook.

She is survived by her husband, Charles, and four daughters, Winnifred (Mrs. Edgar Phillips), Muriel (Mrs. Ray Mann), Helen (Mrs. Chris Hagerman), Marie (Mrs. Robert Merry), all of Port Hope, and two sons, Floyd of Cobourg and Charles of Port Hope. Also surviving are 14 grandchildren.

Pallbearers were sons, Floyd and Charles and her son-in-laws Edgar Phillips, Ray Mann, Chris Hagerman and Robert Merry.

Dear Dr. Burling -

Thank you for your letter and
I was thrilled to think I might be
able to add to your information as
the enclosed "trees" are some so
that you can follow them easily.

1. The same tree is on the list
we have. There are others but we are
inclined to believe this and the Martlet
bird are the originals. Have you ever
seen or heard of a book "Rutherford's
that Ith?" I have written various places
but cannot locate a copy. They are not
of print naturally, so the indexing house
can't help. It evidently contains a wealth
of history. The person we have is the
Stewart is the "Laird" who gathered
who supported the Statute in the
Civil War years. I have compared
these and find no error until I find it.
The last one I have seen is done
The British Government had it

I see a name in my book
which I can recall clearly.
It says Aunt Phena Bayce of
Bath. Husband William was
a cousin of John G. Smith.
Maybe she would send
her this is related.

Reading that my grand-
parents wife, second cousins
was rather interesting. Had
they managed to find this
document (copy) I never
knew. My uncle contracted
measles and we could never
trace any other case in the
family. However, I found that
it was in this family that
a man married so much the
father and mother, but I never
knew ~~that~~ ~~the~~ the
line.

... a true son and
 brother daughter. The year
 1886.

My husband will be interested in
 taking a summer course in
 business. I can leave there
 we will bring the pictures and
 history and you can read.

I am interested in the
 business. I notice a business
 came over in the States about
 eight years after the war.
 Mothers and is listed in the
 bank. Saints and strangers.
 I have no explanation as
 yet but this Anderson would
 take me to meet a spiritual
 woman next time I would
 like. The studies and are
 connected as a rule with
 the history. Also the Evans
 family.

11.

Thank you again and
I am the most interested
in any information. The
early Canadian history that
this family searching reveals
is amazing. I was all
there, at least, here but
it seems so much more
interesting now.

Sincerely -

Harry Shepard

Dear Sir

We are attempting to trace
the family histories and the
names of Kingston suggested
you for being a potential help.

1. Snook - Martin Snook
was the original with seven (6)
children - Gen. C. L. ¹⁷⁹⁰ - passed
away where we could
find out the place from which
he came in the states.

2. Snook - Capt David
was, we think, the original
Canadian Snook and we
are looking for information

regarding the and the
family which we have not
been able to find.

We hope this will not
cause too much trouble for
you -

Dear Mr. Durling -

I am very interesting in your
land and I will try to answer
your questions right away

I have seen the petition for
land from David Babcock -
Kingston - and in 1806 I believe
received in American war -
for land - 3000 acres + land
including 200 acres already in 1806.

also - Daniel Babcock -
Kingston praying for a grant of
200 acres of land as the son of
David Babcock - same place
in 1806 - took date 1833 -

in the N.E. Centennial Celebration
Book 1784 - 1884 - Benjamin
Babcock's children are listed as
served by his father David.

between Martin and his son
 James, signing over the farm
 but James was a weak man
 he and his wife Elizabeth. The
 agreement was witnessed by
 one signed Eli Emmons. This is
 why I surmised that it was
 Martin who married the Miss
 Emmons as there is no record
 of an Emmons. However your
 list of the Emmons children
 would seem that their petitions
 were made in the same generation
 as Ambrose who petitioned in 1811.
 Martin & Elizabeth had land at
 Lattimer but it was not the
 land which had been granted to
 them in 1790. All his children
 were given grants but they
 were all around that valley
 and were sold. Ambrose's wife's
 name was Sarah but the

I have that he was a
grandfather and it is just family
legend that his father was
snick. I will have to check
further at Ottawa.

I am not sure that Martin
Snack's wife's name was Elizabeth
Commons. Family legend written
by Edward Henry Snack and copied
for me by Mrs. Hanson Snack said
"that three brothers James, Henry &
Emrick settled in Kingston. Bro.
Emrick bought a homestead in
Kupuk and married a Miss Commons
they had three daughters and one
son John Martin". This account
put me off the track for a while
as the only Snacks listed were
Frederick and Martin. Martin's children
I listed as you have and have
proven satisfactorily that his son
Ambrose was his grandfather
and the father of John Martin.
I have a copy in an argument

Sarah Emmons you list married
Henry Stacker so that couldn't
have been the Miss Emmons. It
is rather confusing and I don't
know just where the data will
turn up. I have a notation here
of a John Emmons - settled in Midland
area - was a soldier in Union &
Wash. Reg. - by order of Council - 1807.

The 'true' are very interesting.
It is coincidental that an Amy Van Allen
dau. & Capt. McGuire was the
grantee from the Crown of the
400 acres of land just across the
head of Emmons.

You can rest assured that
I will be in to see your sister
as soon as possible. Her son
Paul is married & lives at 92 Allen St.
Kingston. He is in 5th year Meds and
a daughter is in training at Hotel Dieu.
I might get very anxious to see
them all here summer -
Sincerely - Mary Foster

S. B. RUTHERFORD

R.R. N., ORONO, ONTARIO

Dr. W. Curran of Kingston
happened to mention that he and
his Curran used to go swimming
at a snook farm in Fayetteville
near Syracuse. I took a shot in
the dark and wrote that the
daughter of this man answered
and said the original ancestor
of hers was John Snook. In our
family legends there were supposed
to be three brothers three of
whom came to Canada, one John
stayed in the States. I am
taking this line down to the
present time. Originally the family
is supposed to have come from
a noble in England called Senexater
but fled to Holland because of
religious persecution. There he
married with a Dutchess of Wessenberg
and came to the U.S.A.

Benjamin is listed as settler from
 N.Y. State and served in Blackhouse
 & did David - I have also seen
 listed a Capt David Babcock an
 M.C. who was planted 300 acres
 of land in various parts of Ontario.
 I have assumed these Davids
 are the same but have no
 definite proof. This is all I
 know of the Babcocks before
 1820. My contact in this
 family is a Mr. George Henderson
 who is in the law library at
 Queens and working on his M.A.
 in history. He often sends me
 snippets from things he is
 reading but doesn't have the
 time to make an organized
 search into the family. The
 last report he sent was from
 the Report of the Public Archives
 in 1949 and it was a marriage

I have written to the Hague
but no record of any letters,
presented. I have written to
London that they give me no
information without an actual
summon. One of the Spitham
Is - one in England for a
year and is going to try and
back this up for me in the
Library in London.

Babcock

My grandfather (great great) was David
Babcock b in 1820 at Winton - he
married Maria Sherman (I am interested
in this family too). His father was
Eli Babcock who married Katy Snider
in Aug. 1816 Exmouth. There is
an Eli Babcock listed as a son of
David Babcock in U.C.L. - Benjamin
Babcock is listed also, ^{was U.C.L.} and I have
seen a list of his children in 1804
given by his brother David.

I
entitled "Cole-Babcock" from the
family Bible of J. S. Mueller of
Madison, Wisconsin. The record
was begun by Sophia Cole, granddaughter
of Daniel Cole, the first settler in
Edolphustown and John W. Babcock
upon their marriage in 1833. This
family tie in any place as yet
but I have numerous pieces of
information which I hope to be
able to fit together.

-This probably seems very
unnatural to you but we are
having to learn and must depend
on people like yourself, I am
glad, to help. An advice as
a source of material and
pleasure to write is very much
appreciated - Thank you again.

Sincerely -

-Mrs. S.B. Mary Anthony

Dear Mr. Burling-

Your letter was received today and I am sending you a copy of one account we received. This John Congue and Rutherford is dead and we can't seem to trace the source of this data. We have two different accounts with other information but they tally with this one basically. We thought perhaps this would give you a clearer idea of the last generation or two which are reading us. The eldest William & his wife both appear in the 1851 census as living just across the road from us here. He died in 1851 but it must have been after the census.

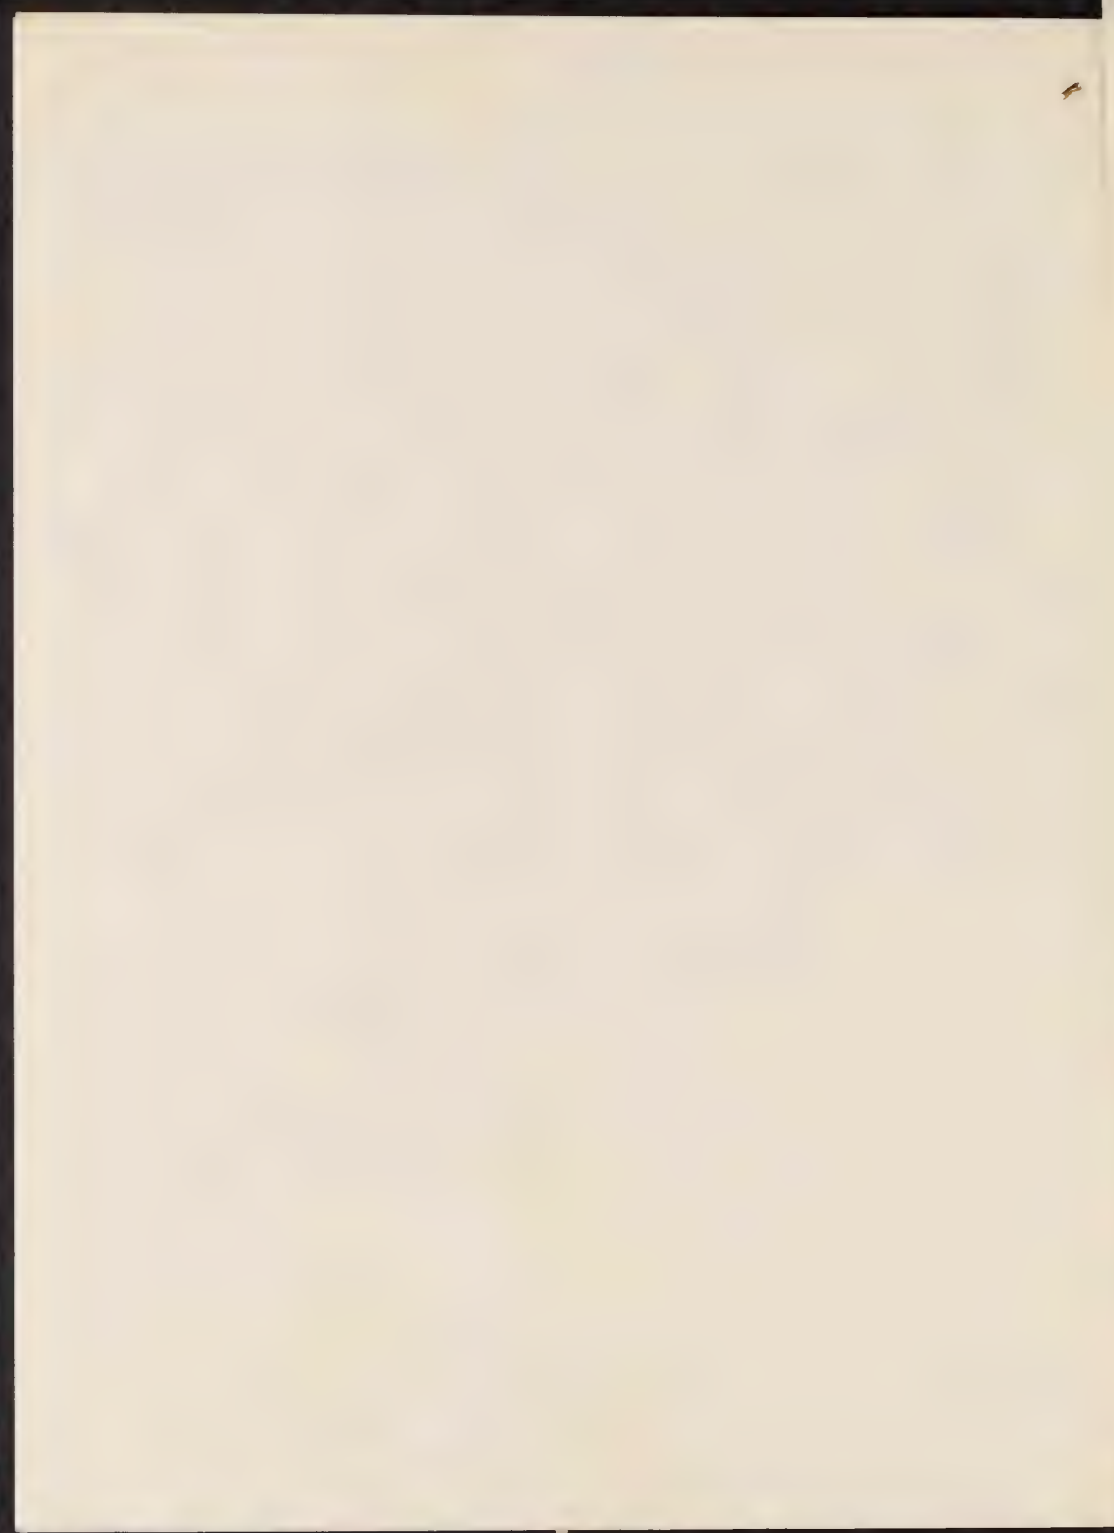

Mr. Manning delivered our eldest
child which is Paul who is at Med.
School in Kingston. We moved
away when Paul was only two
months old and Mr. Manning
left shortly after as that was
1939. We were very fond of him.
A Mr. Mary McKillop delivered the
other children in Nakina in
Northern Ont. By the time we
moved back here Mr. McKenzie from
Smith Falls was here.

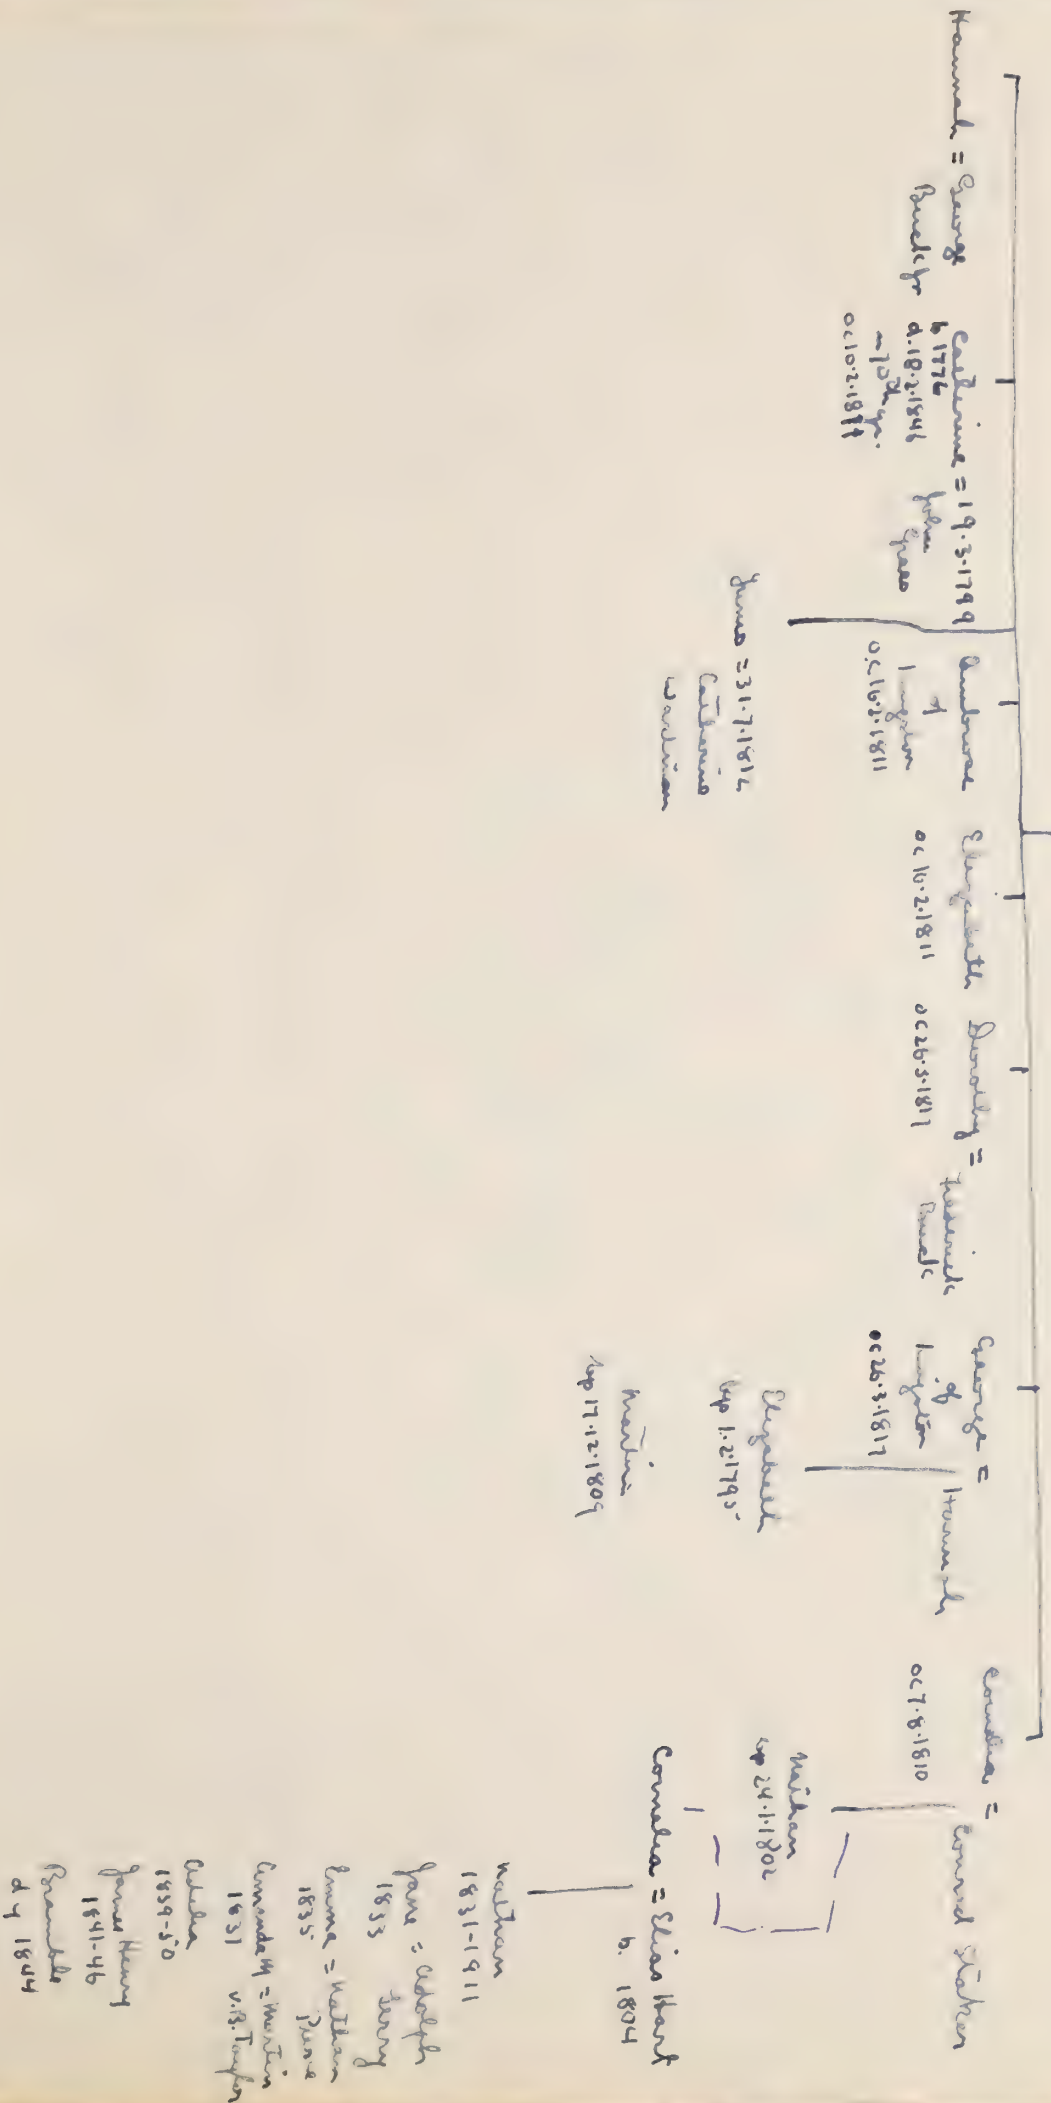

Thanks again -

Sincerely -

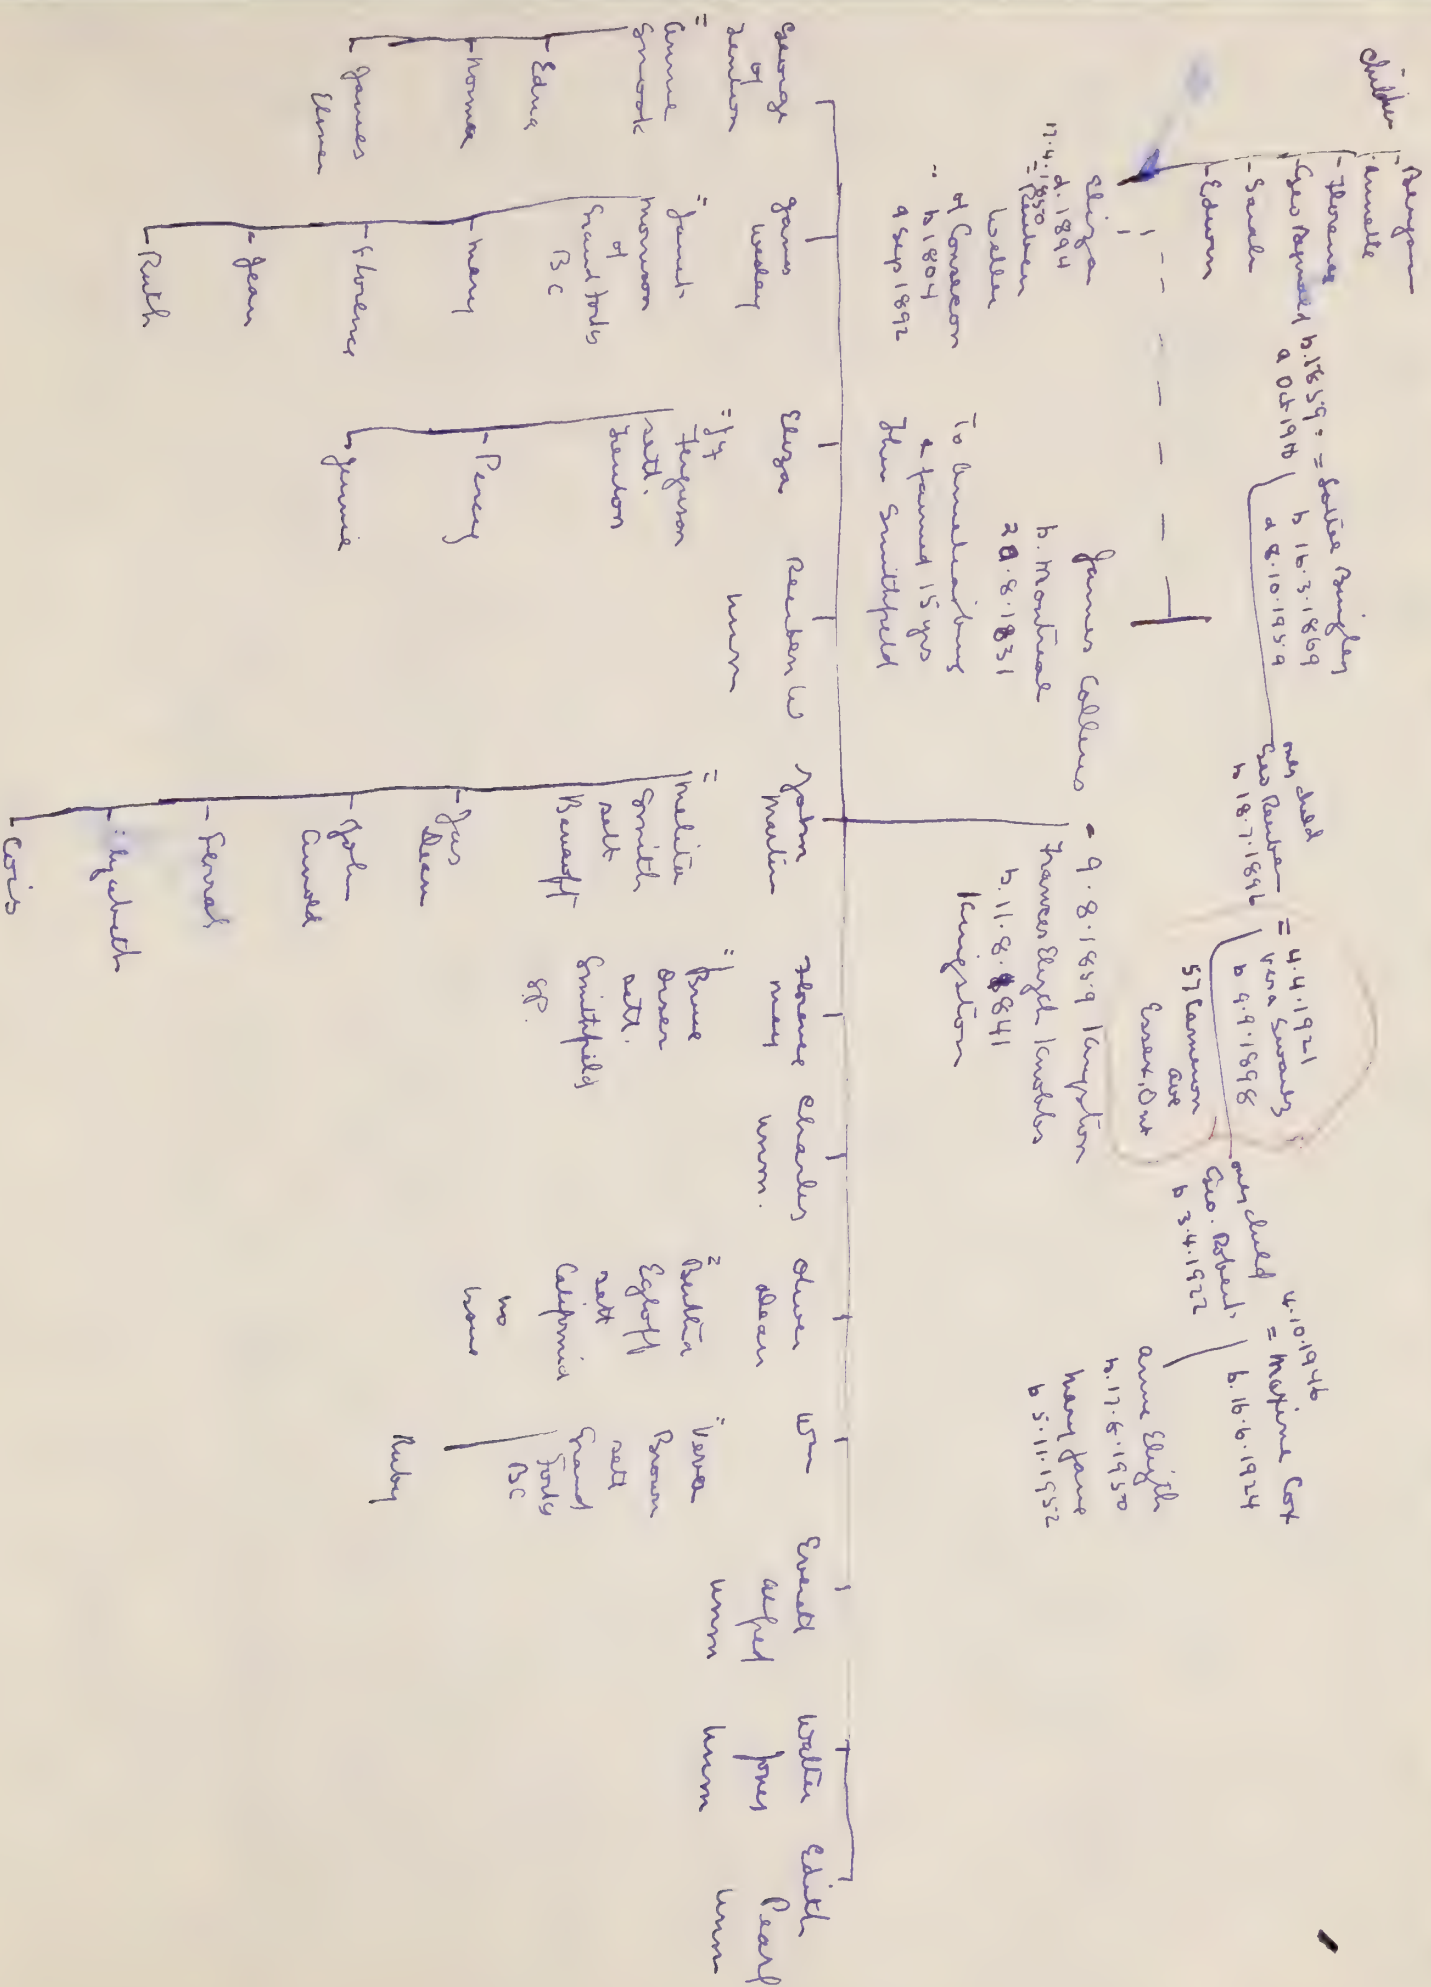

Mary McKillop

With regard to the Fallins family, James Fallins had a son - Fred Fallins who was a graduate of Emory and on the Board till his death. He was married to a Thacker & March of Kingston - sister of Mr. Walsh, a dentist there.

Snook

The first account I heard of Snook is that Frederick and Martin Snook were granted land in 1790 near Kingston. They didn't take this land as Martin was up in years. I don't know about Frederick, there is no more reference to him that I have seen. Martin had seven children and I have seen the grants to them as children of Dr. C. C. L. - I also have their names and who they married.

Mrs. S. B. Rutherford,
Orono, Ont.

Dear Mrs. Rutherford:

I have decided to answer your latest letter now, while many points are clear in my mind. Naturally, I have spent several hours going through it, and making skeleton trees of ancestry. I shall answer with several points in mind, such as,

- A. I am fascinated in the work on your husband's family, particularly that dealing with the family in Scotland. This is because my wife claims descent from the early Rutherfords through the Traquair Stewarts, her mother and sister claiming to be the last of that family. I have done a great deal on the Stewarts, and allied families. No doubt he has record of the marriage (dispensation 1505) of Christian, heiress of Rutherfords of that ilk, with James Stewart, the first of Traquair. Perhaps he also has record of the marriage of Christian Rutherford of Hunthill with Sir James Imsden. My wife claims both as her ancestresses. By the way, I am in the market for a copy of the book on the Scottish Rutherds when you have it published.
- B. Perhaps I did not tell you that I follow genealogy of local families as a hobby. I have been doing this for more than thirty years. At present, I have files, large and small, on almost 800 families, as well as many note-books dealing with military service, military records, obituaries, etc. That is why I suggested exchanging notes, as that is how, in part at least, I am able to build up my records. However, before I can be of assistance, I must have a skeleton record to go on with. In dealing with the ancestors of a person it is necessary to furnish some sort of list of ancestors. It is also very important to mention brothers and sisters of ancestors, because this often clinches connection and does away with supposition. So, I am asking completion of the attached sketch.
- C. I note that you are not actually a descendant of Martin Snook. Therefore, the following record may not be much good to you. However, here it is,
Desert Lake Cemetery.
J. M. Snook, died 30 March, 1885, aged 70 years.

Oliver Snook, 26 July, 1846--4 Jan., 1910.
Susan Creighton, his wife, 1847-1945.

Edward Snook, 6 Oct., 1861--8 April, 1940.
Edith Maria Campbell, his wife, 4 Dec., 1863--28 Aug., 1922.
I knew Edward and his wife, as well as their two sons when they lived at Desert Lake.
- D. I am interested in the Freemans, as my second great grand father married one of that name, and I have much on the early days of the Freemans which I can help you with, provided you have more information on Maria. The same goes for the Babcocks and Sniders.

Shall close now, hoping that you will fill in and return the attached paper.

Yours Sincerely,

THE UNIVERSITY OF CHICAGO
